Presents

Surgery Grand Rounds

The Relationship of Hiatal Hernia and Gastroesophageal Reflux Symptoms—
Two-Sphincter Hypothesis

Weston G. Andrews, M.D.
General Surgery Resident

Department of Surgery
University of Florida College of Medicine

March 28, 2023

8:00 AM – 9:00 AM

Alumni Auditorium

Learning Objectives:

Upon completion of this activity, participants should be able to:

1. A review of the anatomy and physiology of the gastroesophageal junction
2. The debate: anatomical versus physiologic barrier to GERD
3. A modern summary of the two-sphincter hypothesis

Disclosure

Dr. Andrews has disclosed that he has no relevant financial relationships. No one else in a position to control content has any financial relationships to disclose. Conflict of interest information for the CME Advisory Committee members can be found on the following website: <https://cme.ufl.edu/disclosure/>. All relevant financial relationships have been mitigated.

Accreditation

The University of Florida College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit
